Facility Managers

How to increase your earnings

Introduction

Overseeing the maintenance of a facility, manufacturing plant, office building or warehouse can be tasking. With the right CMMS, overall efficiency of service can be improved to a high degree.

In addition to an increase in efficiency of service, our software guarantees a direct increase in earnings at no extra cost to your clients.

Meter manager

Our software comes equipped with a meter management tool that enables you manage prepaid and post paid meters for your clients.

Features

Virtual Meter Groups

Organize and map your virtual meter groups to your physical infrastructure.

Reports & Analytics

Instantly generate electric utility reports, receipts and single or grouped meter performance analytics

Commissions

Earn percentage based commissions on your clients prepaid and post paid meter transactions.

Discount Codes

Create discount codes and offer electricity incentives to your staff, clients and affiliates

How commissions work

Assuming you manage 20 clients on our system and each consumes NGN 500,000 worth of electricity per month.

Your net transaction volume at the end of the month will be NGN 10,000,000.

If you're subscribed to our Enterprise plan, you'll earn (0.5% of NGN 10,000,000 = NGN 50,000) per month thus potentially generating **NGN 600,000** per year.

Subscription plans

To enjoy the full benefits of using our system, choose a subscription plan that best suites your business.

	Enterprise	Professional	Business	Agent
Meters	Unlimited	500	100	50
Discount codes	Unlimited	10	5	2
Users	Unlimited	500	100	50
Analytics	Yes	Yes	Yes	Yes
Commission	0.50% per transaction	0.40% per transaction	0.30% per transaction	0.20% per transaction
Transaction Fee	NGN 100 + 0.099%	NGN 100 + 0.072%	NGN 100 + 0.048%	NGN 100 + 0.048%
	NGN 24,000 / year	NGN 12,000 / year	NGN 6,000 / year	NGN 1,000 / year
